Our story

Floor's is the place to relish! We serve fresh, homemade dishes that are crafted and prepared with passion. At Floor's, quality and sustainability are paramount. We set high standards and continuously develop ourselves and our dishes. We have a zero-waste mentality, preventing waste together.

100% glutenfree, why?

In 2018 our daughter Floor was diagnosed with celiac disease (an auto-immune disease). Finally we understood why she was so ill. She cannot tolerate gluten, which seems to be in just about everything...

As we familiarised ourselves with a strictly gluten-free diet, we were surprised to find that we could hardly go out to eat anywhere with peace of mind. Until we ate at a gluten-free pizzeria in Paris. That's where our dream began: to open a 100% gluten-free restaurant in Leiden. You will only know how it feels to enjoy and share food together, without stress, once you experience it. And we want everyone to have that feeling!

We are here for everyone. With or without allergies, intolerances, or any other food-related issues. It's all about relaxing together. Enjoying delicious food without worries. From someone who can eat everything this may sound exaggerated, but at Floor's you can eat safely.

We have been open since December 1, 2022. Our guests inspire us daily with their stories and experiences. Do you have tips or feedback? Do let us know! We also appreciate if you leave a positive review on one of our socials of course ;D

Love from Floor's coffee & brunch bar!
